PROFILE

Senior Web Developer with **8+ years** of experience building, improving, troubleshooting and maintaining websites for businesses, agencies and international clients. I specialize in **WordPress** while working across **frontend and backend development, UI/UX implementation, custom web development, Webflow** and **eCommerce**. I focus on solving the problems that make websites slow, hard to maintain or unable to support business needs — building sites that are responsive, performant and maintainable. Experienced working remotely with international clients alongside designers, project managers and QA teams.

CORE EXPERTISE

Custom Website Development

Frontend & Backend Development

WordPress Themes & Plugins

PHP, JavaScript, HTML5 & CSS3

UI/UX Implementation

Webflow Development

E-commerce & WooCommerce

Elementor & Gutenberg

ACF & Custom Post Types

REST APIs & Integrations

Performance & Core Web Vitals

Troubleshooting & Bug Fixing

Maintenance & Support

PROFESSIONAL EXPERIENCE

Senior Web Developer · [FourthD Inc.](#)

06/2023 – Present · Canada (Remote)

Part-time, concurrent with Vertex Agency until 06/2024

- Lead end-to-end web development for international clients, combining hands-on frontend and backend engineering with technical consultation and ongoing support.
- Build custom websites and functionality using PHP, JavaScript, HTML5 and CSS3, with WordPress as the primary platform alongside Webflow.
- Implement UI/UX designs as responsive, user-friendly interfaces; develop custom themes, plugins and eCommerce solutions with ACF, CPTs, REST APIs, Elementor, Gutenberg and WooCommerce.
- Diagnose and resolve complex website, WordPress, plugin, theme, PHP, JavaScript and responsive-layout issues.
- Improve site speed and Core Web Vitals through caching, asset optimization, lazy loading and code refactoring.
- Gather requirements, recommend practical solutions, provide estimates and report progress directly to clients.
- Maintain secure, scalable codebases across client projects; deliver post-launch support and training.

WordPress Developer · [Vertex Agency](#)

07/2020 – 06/2024 · Pakistan

- Delivered WordPress solutions for clients across multiple industries in a fast-paced agency environment.
- Developed custom themes, plugins and advanced functionality with PHP, JavaScript, HTML5 and CSS3.
- Built custom solutions using Custom Post Types, ACF and REST API integrations.
- Converted UI/UX designs into responsive, accessible websites with Elementor, Gutenberg and other builders.
- Optimized site performance through caching, lazy loading and asset minification.
- Worked closely with designers, PMs, QA and clients to ship on deadline; provided post-launch maintenance and support.

PROFESSIONAL EXPERIENCE (CONT.)

Website Developer & Designer · [Quicklinks](#)

02/2019 – 06/2020 · Pakistan

- Progressed from junior to WordPress developer, contributing to theme and plugin development, performance optimization and UI/UX improvements.
- Delivered freelance projects end to end — from planning and design through deployment — while managing timelines independently.

Website Developer · [Brandmakers](#)

07/2016 – 01/2019 · Pakistan

- Built and maintained WordPress websites using themes, plugins and page builders such as Elementor.
- Gained hands-on frontend and backend experience with HTML, CSS, JavaScript and PHP, with a focus on responsive, user-friendly layouts.
- Applied UI/UX principles to create more intuitive interfaces; supported updates, performance optimization and content management.
