PROFILE

Senior WordPress Developer with **8+ years** of experience in **custom WordPress development** for businesses and agencies. I build and fix the things that make WordPress sites slow, hard to maintain or unable to support business goals — through **custom themes, plugins and functionality, WooCommerce, technical SEO, Google Analytics** tracking, and **performance and Core Web Vitals optimization**, backed by reliable post-launch support. Experienced working remotely with international clients, translating requirements into practical technical solutions alongside designers, project managers and QA teams.

CORE EXPERTISE

Custom WordPress Development

Custom Theme & Plugin Development

Custom Functionality

PHP & JavaScript

WooCommerce Customization

ACF & Custom Post Types

REST API Integrations

Elementor & Gutenberg

Technical & On-Page SEO

Google Analytics (GA4)

Performance & Core Web Vitals

Troubleshooting & Bug Fixing

Maintenance & Support

PROFESSIONAL EXPERIENCE

Senior WordPress Developer · [FourthD Inc.](#)

06/2023 – Present · Canada (Remote)

Part-time, concurrent with Vertex Agency until 06/2024

- Lead end-to-end custom WordPress development for international clients, from consultation to support.
- Develop custom themes, plugins and complex functionality using PHP, JavaScript, HTML and CSS — including hooks and filters, shortcodes, custom Gutenberg blocks and admin options.
- Build custom solutions with ACF, Custom Post Types, REST APIs, Elementor, Gutenberg and WooCommerce, including custom checkout and product features.
- Implement technical and on-page SEO (meta data, schema, sitemaps, site structure) and set up Google Analytics (GA4) with event tracking for traffic and conversions.
- Diagnose and resolve complex WordPress, plugin, theme, PHP, JavaScript and responsive-layout issues.
- Improve site speed and Core Web Vitals through caching, asset optimization, lazy loading and code refactoring.
- Gather requirements, provide technical estimates and briefs, and report progress directly to clients.
- Maintain secure, scalable codebases across client projects; deliver post-launch support and training.

WordPress Developer · [Vertex Agency](#)

07/2020 – 06/2024 · Pakistan

- Delivered WordPress solutions for clients across multiple industries in a fast-paced agency environment.
- Developed custom themes, plugins and advanced functionality with PHP, JavaScript, HTML5 and CSS3.
- Built custom solutions using Custom Post Types, ACF and REST API integrations.
- Converted UI/UX designs into responsive, accessible websites with Elementor, Gutenberg and other builders.
- Optimized site performance through caching, lazy loading and asset minification; built SEO-friendly sites with GA tracking.
- Worked closely with designers, PMs, QA and clients to ship on deadline; provided post-launch maintenance and support.

PROFESSIONAL EXPERIENCE (CONT.)

Website Developer & Designer · [Quicklinks](#)

02/2019 – 06/2020 · Pakistan

- Progressed from junior to WordPress developer, contributing to theme and plugin development, performance optimization and UI/UX improvements.
- Delivered freelance projects end to end — from planning and design through deployment — while managing timelines independently.

Website Developer · [Brandmakers](#)

07/2016 – 01/2019 · Pakistan

- Built and maintained WordPress websites using themes, plugins and page builders such as Elementor.
- Gained hands-on frontend and backend experience with HTML, CSS, JavaScript and PHP, with a focus on responsive, user-friendly layouts.
- Applied UI/UX principles to create more intuitive interfaces; supported updates, performance optimization and content management.
